

Instructions

The Coin Converter can be opened from the Character Sheet Inventory Tab. The button is located in the TREASURE header.

The screenshot shows the 'Inventory' tab of a character sheet for a character named 'Tester123'. The interface is divided into several sections: NAME, EQUIPMENT, TREASURE, and ENCUMBRANCE. The 'TREASURE' section is highlighted with a red box, and a 'Coin Converter' button is visible within it. The 'ENCUMBRANCE' section shows a 'Current' value of 0. The right-hand side of the window has a vertical menu with tabs: Main, Skills, Abilities, Inventory, Notes, Log, and Actions.

#	NAME	LOCATION	WT
TREASURE			
0	PP	6	GP
20	SP	0	CP

Maximum	Lift/Push/Drag	Current
150	300	0

The Coin converter window shows the current currency held by the character. On the right-hand side of the window, enter the number of coins to convert, the From, and To currency types, then press the Convert button.

When a currency conversion is successful, a message will be output to the chat for the GM and the Player showing how many coins were converted. If there is an issue, an error message will be displayed to the Player only.
