NPC Power Threat Range

- Instructions

Instructions

This extension was originally developed by Lord Taser. Upon request of the original author, ownership and future development was transferred to mattekure.

The COP - NPC Threat extension is designed for D&D 5E. The extension adds a visible threat range indicator to maps for NPC attacks and powers.

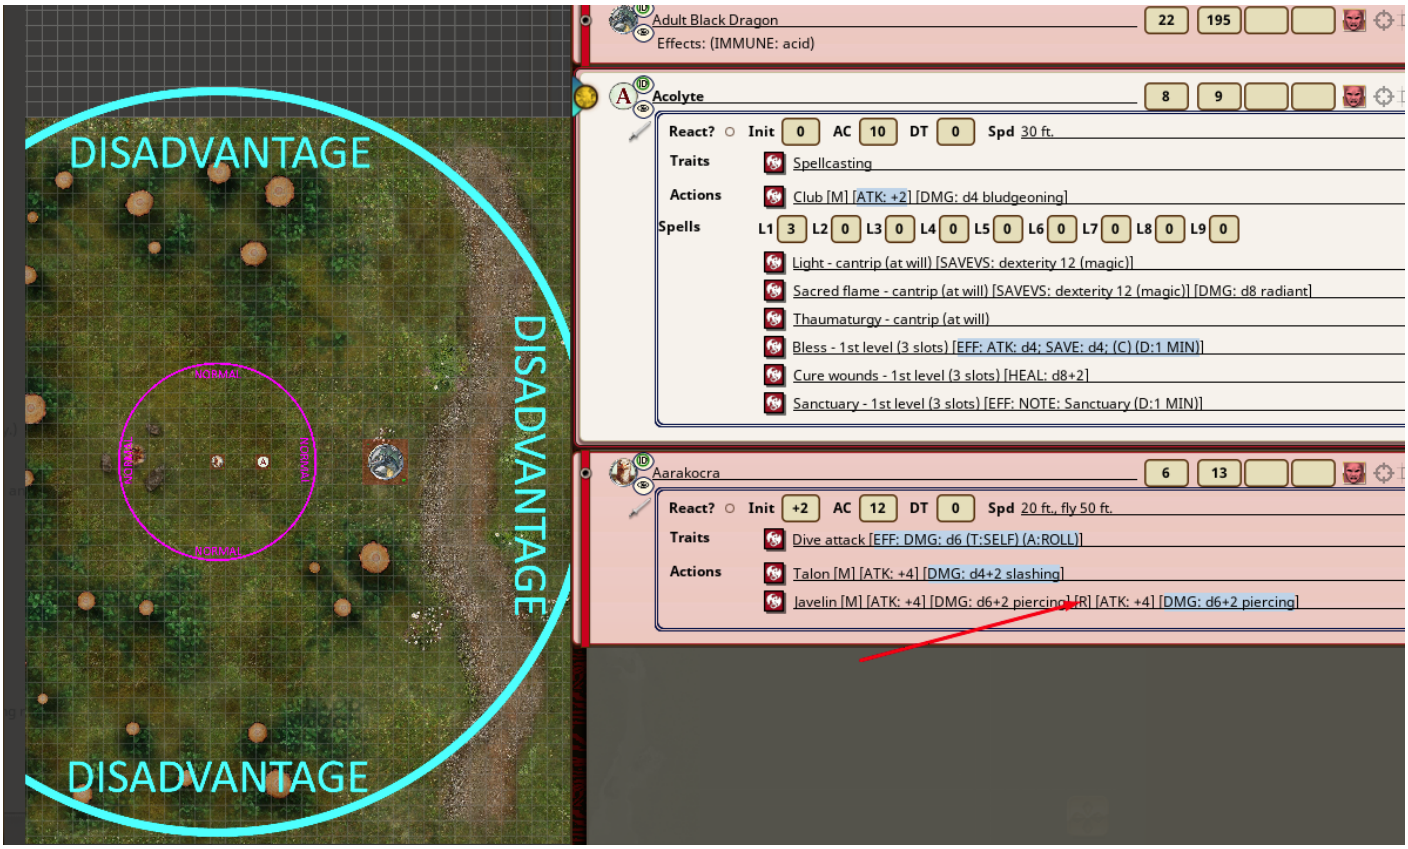

The range indicator can be displayed by mousing over the power in the NPC's entry on the Combat Tracker. The threat range will be displayed for Actions, Bonus Actions, Legendary Actions, Lair Actions, and Spells. The drawn threat ranges will only be visible to the GM.

Mouse over NPC Action

Mouse over NPC Spell

Mouse over ranged attack
