Instructions

This extension was originally developed by Lord Taser. Upon request of the original author, ownership and future development was transferred to mattekure.

The **PC Power Threat Range** (formerly COP - Spell Threat) extension is designed for D&D 5E. The extension adds a visible threat range indicator to maps for PC spells and powers.

The range indicator can be displayed by hovering the mouse cursor over the gear icon to the right of the spell or power in the PC's character sheet. They will only be visible locally, and is not visible on other players display. The PC must be in the combat tracker and added to a map from the combat tracker to work.

Example: Sacred Flame

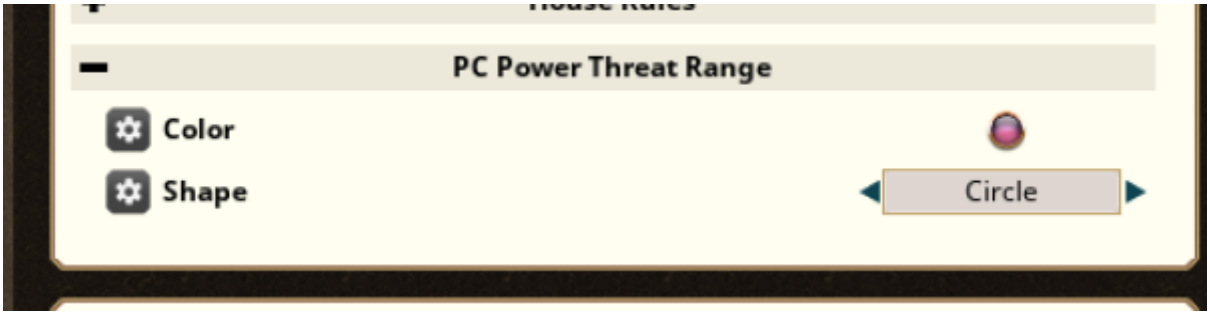

Example: Shocking Grasp

Options

This extension allows you to customize the color and shape of the drawn threat range. The default color is white and shape is circle. Each PC may select their own preferred color and shape.

Color Options: Any color (including transparency) may be selected using the color selector

Shape Options: Circle, Square
