Syrinscape Genre (Fantasy, Sci-fi) player setup

To use the Syrinscape Fantasy or Sci-fi players, you must set the **Player Type** option to **Genre.**

When using the Fantasy or Sci-Fi players, you must pre-download all of the sounds you intend to use. Sounds that have not been downloaded to the player will not trigger playback when selected in Fantasy Grounds. Instructions for use of the Genre clients can be found on the Syrinscape Website.
